The Sisu 22' POCKET SEABOAT

Sisu 22
LOA 21' 9"
Beam 7' 10"
Draft 2' 2" inb.
1' 9" outb.
LWL 20' 2"

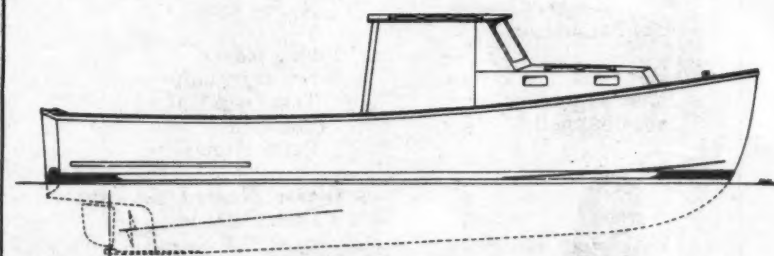

At Sisu, we build boats to uphold the standards of stamina, perseverance and courage that our Finnish name embodies. Royal Lowell's classic New England design gives our tough, hand-laid fiberglass hull the lines and full keel that lets the 22 smooth the roughest weather and keep her head in the pushiest sea.

The Sisu 22 will cruise on just 3.5 gallons/hour with a standard 115 horse Volvo engine, while the 12' by 6'6" self-bailing cockpit gives you plenty of room to work or carry a load the size of more than 40 lobster traps.

The Pocket Seaboat. Tough on the job, easy on your pocket.

INTRODUCING...

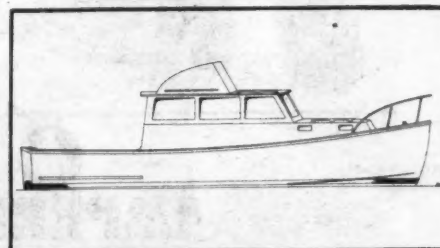

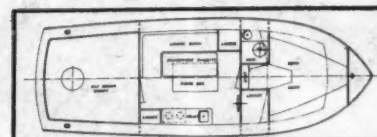

The Sisu 30' BIGGER BASICBOAT

Sisu 30
LOA 29' 9"
Beam 10' 6"
Draft 3'
LWL 28' 2"

Looking for cruising comfort, or a lot of work and cargo space for little money? Look no further; Sisu has the answer. We know you want quality — that's why we're in the business. And that's the reason people who've experienced the benefits of Sisu craftsmanship and durability in the 22 have looked to us for a bigger boat when the time came.

With the same basic lines that Royal Lowell gave the Sisu 22, this Bigger Boat will go a long way on a little fuel. Our Bigger Basic Boat is as easily driven and smooth-running as her little sister and as tough and dependable as the names she bears.

THE 'SEAHORSE' WINCH

UTILITY MARINE WINCH

MODEL S4-5
6 3/4" Drum Diameter

MODEL S4-8
4" Drum Diameter

The Seahorse hydraulically operated worm gear winch is available in two models: Model S4-5 has a rated capacity of 5000 lbs., and Model S4-8 has a rated capacity of 8000 lbs. These winches have been tested per SAE specification J706a.

Features of this winch are:

- * FABRICATED AND GALVANIZED DRUM
- * AUTOMATIC BRAKE ON WORM GEAR
- * 16:1 GEAR REDUCTION RATIO
- * SAE "A" MOTOR MOUNT ADAPTER AND SHAFT COUPLER INCLUDED

THE ALTERNATIVE

...TO EXPENSIVE FLOW-THROUGH
**SEWAGE
TREATMENT
SYSTEMS.**

Specifically Designed for
Work, Supply & Fishboats

**Sani-Rator Type III
(No Discharge)
U.S.C.G. Certified
Oxidizing Toilet.**

As Easy To Clean as your Ashtray.

Sani-Rator Oxidizing Toilets reduce all wastes to an inert, sterile ash. It is specifically designed for the work, supply and fishing boat industry... it is U.S.C.G. Certified Type III (No Discharge) and meets worldwide present and future regulations.

Sani-Rator offers the operator many advantages: • Zero Discharge • Eliminates Need for Plumbing or Pipes (and existing plumbing can be removed) • Fits into Existing Head Space Easily • AC or DC Availability • Approved for Inspected Vessels • Choice of 3 Fuel Sources ... Diesel, Propane or Electric.

Moran Transportation, McAllister Bros., Dixie Carriers, Waterfront Services, Pittston Marine and Bushey are but a few who find Sani-Rator is "The Alternative."
